

LD-AS6001LA

Fully automatic single-spindle Litz Wire special winding tapping double-color casing machine

Spindle number:	1
Maximum winding rotating diameter:	60mm
Spindle speed:	1500rpm
Wire size:	0.03~1.2mm; Multi-strand wire 0.1*180 strands or less
Tube maximum length:	5mm-50mm(non-standard 10mm-80mm)
Three-dimensional motion route:	X:100mm Y:100mm Z:80mm
Spindle servo motor power:	750W
Control system:	6-axis programmable motion control system
Loading and unloading method:	Vibration plate loading/automatic unloading
Power supply:	AC 220V±10% 50HZ
Total power:	2500W
Required air pressure:	0.4~0.6mpa
Single machine size:	L1500x W1750 x H1950 mm
Single machine weight:	420Kgs

Including the following: Insulating tape mechanism/ Two-color casing mechanism/

A set of three-dimensional (X/Y/Z axis) manipulator mechanism
