

LD-ASW9001C
Fully automatic Single-Spindle On Board Charger (OBC) coil
special winding and tapping machine (non-standard)

Spindle number:	1
Maximum winding rotating diameter:	90mm
Spindle speed:	1500rpm
Wire size:	0.03~1.2mm; Multi-strand wire 0.1*180 strands or less
Three-dimensional motion route:	X:100mm Y:100mm Z:80mm
Spindle servo motor power:	750W
Control system:	8-axis programmable motion control system
Loading and unloading method:	Vibration plate loading/automatic unloading
Power supply:	AC 220V±10% 50HZ
Total power:	2500W
Required air pressure:	0.4~0.6mpa
Single machine size:	L1600x W1000 x H1600 mm
Single machine weight:	380Kgs

Including the following:

1. Three-dimensional dialing function.
2. Automatic tape device.
3. Automatic loading of vibrating plate.
