

LD-FS100CLLHT
Special winding machine for element

Wire Size(According to the tensioner configuration) :	0.05-3.0mm
Max .Speed :	2800RPM
Main Motor :	AC 750W Motor
Winding Width :	200mm
Spreading Motor :	AC 750W Servo Motor
Spreading Width :	600mm
Power :	AC 220V 50/60Hz
Net Weight :	125kgs
Dimensions :	L1500*W500*H650mm

Configuration: magnetic tension pay-off mechanism (including winding synchronous brake) / manual cylinder tensioning product switch and mechanism / pneumatic fixture foot switch and clamping product mechanism / wire-stuck automatic parking safety sensor switch / synchronous spindle rotation tailstock.
