

## LD-400QL

### 4" Belt Type Rectangular Coil Dedicated Toroidal Winding Machine

|                        |                         |
|------------------------|-------------------------|
| Wire Size :            | 0.15-0.5mm              |
| Max. Finished OD.(mm): | 10~40                   |
| Min. Finished ID.(mm): | 5                       |
| Finished Height(mm):   | 15                      |
| Max .Speed :           | 800RPM                  |
| Main Motor :           | Servo Motor 400W        |
| Spreading Motor :      | DC,5V Stepping Motor *2 |
| Power :                | 220V, 50/60Hz           |
| Net Weight :           | 85kg                    |
| Dimensions :           | L670*W520*H1100mm       |

Machine parameters can be customized according to customer's products
