

LD-AS01A
Automatic Soldering Machine

Equipment configuration and workflow :

Put material by hand / Automatic assist soldering / Automatic soldering / Automatic cooling / Automatic unloading

Front and behind motor :	AC 400W servo motor
Upper and below motor :	86# stepper motor
Rotating motor :	57# stepper motor
Front and behind Y motor :	800mm, accuracy±0.01
Upper and below Z motor :	100mm, accuracy±0.01
Rotating S motor :	60~240 degrees, accuracy±0.036 degrees
Power Supply :	AC 220V 50/60Hz
Total Power :	3800W
Air pressure demand:	4~6kgf/cm ²
Dimensions:	L1250*W980*H1510mm
Net weight:	300kgs

According to production capacity and demand, LD-AS01B vibrating plate loading / LD-AS01C automatic mechanical robot loading model can also be selected
