<p>EI Auto-Electric Lamination Stacking Machine</p>	<p>Function introduction:</p> <ol style="list-style-type: none"> 1. the number of inserts can be set. 2. Start, stop the number of pieces can be set. 3. start / stop / acceleration and deceleration can be set. 4. Automatic stop function when fault occurs, after taking out the steel sheet, you can continue to complete the remaining number of sheets. 5. touch screen input, easy to operate. 6. Press down the line package support. 7. The thickness of a 0.35/0.5mm silicon steel sheet can be adjusted freely. <p>Device parameters :</p> <p>Steel sheet 0.35mm thickness maximum speed 180 pieces / minute; Steel sheet 0.5mm thickness maximum speed 200 pieces / minute; Voltage: AC 220V 50/60HZ Motor : 86 type 9V stepper motor 6.5N.m Weight: 42.5kg(refer to this DM model EI-35) Dimensions: 590(L)*360(W)*880(H)mm (refers to this DM model EI-35)</p>
